

Heads Up Lite™

#2660 Heads Up Lite™

The new 2610 headlamp provides light to the user who is able to work, hike, bike or play with free hands. It comes with a rubber strap for helmets (to avoid slippery) and a cloth strap for a head or hat. Among other features, it has an ABS resin body, a multi-angle pivoting head and is water resistant. It combines two different levels of light, using 3 LEDs for short distances with long burn time or a extremely bright and powerful Halogen lamp for long distances. It is also provided with a extended duty 4D battery hip pack. It is certified by ATEX and unconditionally Guaranteed ... forever.

| | CANDLE POWER | LUMENS | WEIGHT W/BATTERIES | BATTERIES | AMPS |
|-----------------------|--------------|--------|--------------------|---|------|
| PRIMARY LAMP : | 10.000 CP | 44 | 910 g | 4 'D' Alkaline Batteries located in separate, belt-mounted o-ring sealed pack | 0,96 |
| LEDs (3): | 6 .000 CP | 9 | | | |
